Theyy Dripless

tutto in un prodotto solo.

Potente grazie al suo motore Brushless, forte e silenzioso. Funzionale nel combattere la condensa con il sistema Dripless fatto di filtri professionali e vasca di raccolta. Pratica grazie ai suoi comandi Touch integrati al visore in cristallo, profondo a proteggere l'anta. La struttura, solida e compatta, completa il pensile integrandosi in maniera discreta allo stile della cucina.

twins 110

Twins 110 è una nuova dimensione che garantisce piena disponibilità di punti cottura (4+1), con un'ampia zona centrale (320mm) e doppia bocca di aspirazione per fermare il calore e aria pulita qualunque sia il tipo di cucina in cui ti trovi.
